Course Development Grant

Emily Farrar (Assistant Professor of Engineering) - to develop a new course for the biomedical engineering concentration.

Scott Kieffer (Professor of Health & Exercise Physiology) - to integrate Primal Pictures into Human Anatomy and Kinesiology courses.

Valerie Lemmon (Associate Professor of Psychology) - to develop a new course on Applied Behavioral Analysis.

David Owen (Associate Professor of Computer Science) - to restructure Computer Programming 1.

Jenell Paris (Professor of Sociology and Anthropology) - to acquire artifacts from hunters and gatherers for use in Cultural Anthropology courses.

Keith Quesenberry (Assistant Professor of Marketing) - to redesign the Social Media Marketing course.

Cross-Cultural Grant

Ed Arke (Professor of Communication) – to develop a cross-cultural course in Canada including Toronto, Ottawa, and the French-speaking provinces.

David Pettegrew (Associate Professor of History) – to revise the cross-cultural course in Cyprus and Greece.

Scholarship Grant

Rachel Cornacchio (Associate Professor of Music Education) – to collect, catalog and edit the musical works of Dr. Paul F. Liljestrand.

Jan Dormer (Associate Professor of TESOL) - to engage local school administrators in exploring the benefits of TESOL.

Matthew Farrar (Associate Professor of Physics) – to develop a research-grade, multi-beam fluorescence correlation spectroscopy (FCS) apparatus.

Milton Gaither (Professor of Education) – to support his collaborative research on home-school demographics.

Brent Good (Assistant Professor of Art) – to frame new works of art for solo exhibitions.

Kathy Hettinga (Professor of Art) and Kim Yunez (Associate Professor of Spanish) – to document in images and text the historic Zion Lutheran Church in Harrisburg.

Niklas Hellgren (Assistant Professor of Physics) - to develop boron-10 thin films on plastic scintillator for neutron detection.

Erik Lindquist (Professor of Biology and Environmental Science) – for research on the phenology and behavior of the Panamanian Golden Frog.

Abaz Kryemadhi (Associate Professor of Mathematical Sciences) - to support placement of a cosmic ray detector in Albania.

Carol McGinnis (Assistant Professor of Counseling) - to attend the 2016 White Earth Reservation Institute for Education.

Bernardo Michael (Professor of History) - for archival research on Charles Freer Andrews at the British Library.

Alison Noble (Associate Professor of Chemistry) – for research at the Materials Characterization Lab.

Eric Seibert (Professor of Old Testament) - to work on a book provisionally titled Disarming the Church: Why Christians must Forsake Violence to Follow Jesus and Change the World.

Cynthia Wells (Associate Professor of Higher Education) - to write about general education in a Christian context.

Kathryn Whiteley (Assistant Professor of Criminal Justice) - to conduct research on the lives of women incarcerated for murder in Australia and the United States.

Tesfa Yacob (Assistant Professor of Engineering) - to gather data on water consumption and liquid waste generation in housing projects in Addis Ababa, Ethiopia.

Teaching Enhancement Grant

Sarah Fischer (Assistant Professor of Literacy Education) and Jennifer Fisler (Professor of Education) – to develop project-based learning pedagogy in the Instructional Design and Assessment course and assess its effectiveness.
